CAREER OBJECTIVE

Recent Computer Science graduate with over a year of hands-on experience building and testing web applications and mobile applications for Android and iOS. Experienced in over 5+ programming language and framework development, particularly in Java and C#. Seeking to utilize my backend development experience in an entry-level position.

WORK EXPERIENCE

Junior Developer

MNP Digital

September 2022 - December 2022 / Remote

- Developed and presented a web application project proposal for a company Hack-a-thon to improve workflow and social engagement, achieving third place among participants within the company.
- Researched and delivered a 25-minute presentation on a web application framework designed to improve product reusability and reduce development time of client solutions.
- Assisted Senior Developers in WebApplication development using C# and Visual Basic to improve client reporting software.
- Implemented and released frontend web application content for client solutions using Javascript and Visual Basic.
- Developed and implemented feature requests and user stories into Azure DevOps for an internal startup project.

Junior Co-op Developer

MNP Digital

January 2022 - May 2022 / Remote

- Assisted Senior Developers in project development using C# and Visual Basic WebApplication improving client reporting software.
- Created and modified Oracle database stored procedures for client reporting systems in SAP Crystal Reports.
- Documented and implemented user agent regression testing with TestProject.io to improve testing efficiency and release schedule.
- Organized and performed over 75+ remote VM client software installations to improve work efficiency.
- Procured and implemented new courses with over 8 hours of self-directed content for future Jr. Application development employees.

MS Visual Studio, Git, Netbeans,
JUnit Testing, Android Studios,
Postman

Junior Quality Assurance Specialist

Shoelace Learning

May 2021 - Aug 2021 / Halifax, Nova Scotia

- Researched and delivered a workshop on youth (ages 5-16) analytics in gaming trends to top industry professionals.
- Recommended and implemented new strategies to gauge and improve software run time efficiency.
- Identified and communicated bug reports and helped validate implemented fixes in a timely and efficient manner.
- Documented and communicated high quality product updates for 21 staff members and shareholders.
- Recommended and validated new features to company products that encourage better user experience and engagement.

Dance Instructor

Rising Tide Dance Academy

September 2018 - current / Bedford, Nova Scotia

- Experienced teaching with age groups ranging from 2-16 years old, with high volumes of student attendance.
- Effective at conveying ideas, concepts, and techniques based on varying skill levels/proficiencies of students.
- Strong background in character building and assessing strengths and challenges for students.
- Exceptional creativity in developing choreography, along with adaptability in modifying movements based on student capabilities and learning styles.
